

**Contains
NO Chlorinated
Solvents**

**No
1,1,1-Trichloroethane**

An oil-based treatment which quickly attracts dust and dirt to mops, cloths, and mitts. Eliminates the annoyance of flying dust. Reduces possible inhalation and prevents resettling.

Contains special ingredients that convert dust into heavy lint which shakes out or can also be washed out easily. A routine treatment program will extend the life of the floor finish and help maintain gloss. Use on finished resilient Asphalt, Vinyl, Rubber and Linoleum floors.

DIRECTIONS:

Hold dispenser upright 6 to 8 inches from mop or cloth. Spray a light mist directly on mop or cloth. Allow treatment to penetrate. Dust or mop as usual. Reapply as needed. For best results, treat dust mops overnight. When saturated, shake out lint and clean mop, cloth or mitt in washing machine. Retreat after washing.

Caution: Use with adequate ventilation. Intentional misuse by concentrating and inhaling the product can be harmful or fatal. KEEP OUT OF REACH OF CHILDREN.
