

NOTICE:

BUZZ UP Insect Repellent Spray

WECHEM PART # A42

EPA Reg. # 34370-2

Through continued testing it was found that some types of FR clothing properties are compromised and can burn or catch fire (per ASTM D6413, Vertical Flame Test and ASTM F2621/F2621M-19, Electric Arc Test) while having BUZZ UP sprayed on them. We've compiled a list of FR clothing types that have been tested as a guidance for you to consider and use BUZZ UP at your discretion.

Testing on FR Clothing	Vertical Flame		Electric Arc	
	(ASTM D6413)		(ASTM F2621/F2621M-19)	
FR CLOTHING	PASSED	FAILED	PASSED	FAILED
