FORMULATION BASE

HULK SYSTEM SOLO PROGRAM DESCRIPTION

The **Hulk System® Program** was formulated as a replacement technology for consumers who purchase large quantities of degreasers in bulk tanks, totes or multiple drums. It utilizes the latest chemical technologies to simplify the transportation, storage and use of degreasers while drastically reducing all associated costs.

Our patented chemical dispensing **Hulk System®** is a self contained, free standing unit which simplifies the cleaning process. Just connect our unit to your water supply then it's an easy spray on, let soak and rinse off procedure. The **Hulk System®** saves you time, money, storage space, and provides unmatched quality control.

ABOUT THIS FORMULATION

Hulk System® 103LF Formulation Base is a 100% active hyper-concentrate designed exclusively for use through the Hulk System® Solvent Dispenser. When used as directed, this material will produce large quantities of concentrated solvent degreaser.

Hulk System® 103LF Formulation Base is a highly active, solvent based hyper-concentrate. It is designed for heavy-duty degreasing in refineries, petrochemical and offshore drilling platforms.

NOTICE

Other use is prohibited unless authorized by the manufacturer.

WARNING

**KEEP AWAY FROM CHILDREN.
FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS.**

NET CONTENTS: U.S. GALLONS

WARNING: COMBUSTIBLE LIQUID.

May be harmful if swallowed. Causes skin irritation. Causes eye irritation. May cause respiratory irritation.
