

DIRECTIONS FOR USE

PINE PLUS, formulated with a surfactant and pine oil combination for use in schools, lodging establishments, transportation terminals, office buildings, manufacturing facilities, retail businesses and athletic/recreational facilities, where housekeeping is a prime importance.

This formulation provides effective cleaning and deodorization of walls, floors, sink tops, toilet bowls, tables, chairs and telephones.

When used as directed, this product will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops and bathroom areas including toilet bowls and urinals which are prone to odors caused by the growth of microorganisms.

PINE PLUS may also be used as a general cleaner for areas where a fresh pine scent is desirable.

To clean hard surfaces: Add **4 ounces** of **Pine Plus** per gallon of water. Apply with a mop, cloth, sponge or hand pump trigger sprayer so as to wet thoroughly.

For heavily soiled areas: A pre-cleaning step is required. Prepare a fresh solution for each use.

To clean toilet bowls: Pre-clean the bowl, flush toilet and add **4 ounces** of **Pine Plus** directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim.
