

**SHAMPOW** liquid carpet detergent is made especially for steam-type machines and contains powerful ingredients which penetrate, dissolve, and remove even the greatest embedded soils. Excellent for both natural and synthetic fibers. Built-in foam suppressants provide trouble-free extractor shampoo cleaning. Extractor spray jets will not clog because our formula is adjusted to be heat sensitive. Carpet fibers are restored to their original resiliency and lustre with only a minimal amount of detergent. **SHAMPOW** dries quickly, leaves no residue and produces a pleasant, clean fragrance.

**SHAMPOW** is ideal for use in institutions, hospitals, schools, theatres, hotels, offices, restaurants, department stores and homes.

## DIRECTIONS

Add two (2) ounces of **SHAMPOW** to one gallon of hot water or eight (8) ounces (one cup) cleaner to four (4) gallons hot water. If carpets are extremely dirty, double amount of cleaner used. Allow carpet to dry thoroughly before resuming traffic.
